PROFESSIONAL QUALITY COSMETICS

PREBIOTIC HAIR TECHNOLOGY

At VOLTAGE, our hair treatments feature the exclusive PREBIOTIC HAIR TECHNOLOGY, developed to transform hair from the root. This technology combines scientific innovation and high-quality ingredients, harnessing the power of prebiotics to balance the scalp's microbiota and enhance its health.

NATURAL & VEGAN ORIGIN

95% of the active ingredients we use are of NATURAL ORIGIN, and up to 90% are VEGAN, ensuring formulas that are gentle on your hair, skin, and the environment. We are committed to conscious beauty—free from harsh ingredients—prioritizing efficacy without compromising health or the planet.

CRUELTY FREE

From the beginning, Voltage Cosmetics has stood against animal testing—simply out of ethics and common sense. Our launches are tested on lab-grown cultures that closely mimic human skin. Once they pass all our internal controls, they are tested on human volunteers to confirm their results. Finally, a select group of professional hairstylists provides their expert feedback.

ACTIVE INGREDIENTS & PRESERVATIVES

The active ingredients we use have been rigorously tested for efficacy, irritability, tolerance, contamination, and more by leading multinational raw material suppliers in the industry. Our products are 100% FREE from PARABENS and TOXIC substances.
